Somme des mouvements physiques d'énergie entre pays de l'UCTE
Summe der physikalischen Energieflüsse zwischen UCTE-Ländern = 14320 GWh
Sum of physical energy flows between UCTE countries

Ces échanges physiques d'énergie ont été mesurés sur les lignes d'interconnexion traversant une frontière (≥ 110 kV) répertoriées dans le tableau 9 du Annuaire Statistique. Ces indications peuvent donc différer des statistiques officielles et des soldes des échanges donnés au chapitre 1.

Diese physikalischen Energieflüsse wurden auf den in der Tabelle 9 des Statistischen Jahrbuchs verzeichneten grenzüberschreitenden Verbundleitungen (≥ 110 kV) gemessen. Diese Messwerte können von den offiziellen statistischen Werten und den Austauschsalden des Kapitels 1 abweichen.

¹ III = Pays tiers / Drittländer / Third countries
² CENTREL = CZ+H+PL+SK

These physical energy flows were measured on the cross-frontier transmission lines (≥ 110 kV) listed in table 9 of the Statistical Yearbook. These values may differ from the official statistics and the exchange balances in chapter 1.
