# Current status

- **TYNDP 2016 :**
  - currently in the assessment phase for 2030 visions
  - Started the drafting phase for the TYNDP main report and the 14 specific insight reports(see following slide)
- **Released the assessments for the 2020 scenario to all the project promoters**
  - The assessments for 2030 to be delivered to the promoters end April/May
- **Plan to have a public webinar on the preliminary assessment results beginning of May**
- **End June the release of the draft TYNDP 2016 for consultation**

# TYNDP 2016 report drafting

- **Main approach**

- Executive report (“ eH2050 style”)
- Additional insight reports (stand-alone leaflets on single key messages)
- Enhanced website (interactive map)
- Complemented CBA assessment sheet (free description, link with CPS and SEW/GTC, CBA, and complementary studies)

# TYNDP 2018

- **work already started**
- **CBA 2.0:**
  - 16 March 2016 – public workshop to collect initial feedback
  - End April – end May - public consultation on the draft CBA 2.0
- **TYNDP 2018 scenarios:**
  - End April – end May- first request for input on scenarios assumptions
  - End May – public workshop to gather more feedback and give first insight on the received input
  - Further interactions on the methodology, data and draft scenarios to follow after summer
- **TYNDP 2018 main principles:**
  - aimed to be consulted in Summer after the release of TYNDP 2016

# EC – Common TYNDP/PCI Platform

- **EC established a Cooperation Platform with EC/ACER/NRAs/ENTSOs to smoothen the process for the 3rd PCI list.**
  - Kick-off meeting on 5 February.
- **Aims to:**
  - achieve a common understanding of the issues involved
  - deliver practical solutions to address the PCI process based on the previous lessons learned

# 3rd PCI process

- **process starts early:**
  - Based on last PCI selection experience: First TEN-E Cross-Regional and Cross-Thematic Groups Meeting 4 February 2016
- **3rd PCI list to be adopted in 2017**
- **Next Meeting 4 May 2016 (tbc):**
  - Cross-sectoral Regional Groups' workshop
  - Topic: Infrastructure fit for Europe's energy needs
  - Presentations by stakeholders about their visions on the energy systems in the future
